

What Should My Child Be Doing?

Here are some things that your child should be doing every day:

Age – 12 months

- starts to know the names of common things (points to the ball when they hear you say “ball”)
- follows simple directions (“sit down”)
- looks to where you point
- starts to wave, point, lifts arms to be picked up, shakes their head for “no”
- copies the actions and sounds that you make
- gets your attention using sounds and actions while looking at your eyes
- says 3 or more words
- puts lots of sounds together as if they are trying to talk
- likes to look at books
