

## Accessible Playgrounds in Waterloo Region/Guelph/Wellington

Accessible playgrounds are an opportunity for active fun for children of all abilities.

They offer:

- accessible surfacing (such as rubber that provides some cushioning while still making it easy for walkers and wheelchairs to navigate)
- accessible play structure features (ramps and transfer stations make some elements of the play structure accessible to walker and wheelchair users)
- sensory oriented play elements including adapted swings with full body support)

Come explore some accessible playgrounds in our region!
